Camera Catches Bolt

Unusual photo of a lightning flash was taken during a recent Edmonton electrical storm. Photographer, H. G. Van Der Werf, said the lightning, which appears to be striking an apartment house, actually hit some distance beyond. No damage was reported. (CP).

Snubs Miss Germany

Miss Israel Can't Forget

LONG BEACH, Calif. (AP)—The Miss Universe contest produced an international incident Tuesday when, photographers said, Miss Israel refused to be photographed with Miss Germany, Marina Orschel of Berlin.

"I can't do it for political and personal reasons," said the exotic Sara Tal of Tel Aviv. "If I posed for a picture with Miss Germany I would be afraid to go home and face my mother."

"During the war my mother's family was wiped out in Germany and my mother has never forgotten it," photographers quoted her.

She glanced at Miss Orschel, who was standing nearby.

"She's a nice girl, but I can't be seen in a picture with her."

Neutrals Stage Summit Parley

PULA, Yugoslavia (AP)—The big three of world neutrality meet on the secluded Adriatic island of Brioni today.

President Nasser of Egypt joined Marshal Tito on the Yugoslav president's island hideaway. Tuesday night after a flag-waving welcome in Pula, Prime Minister Nehru of India is to arrive by air from Paris today.

Despite Egyptian efforts to attribute large significance to the conference, Yugoslav sources predicted nothing more dramatic than a restatement of known positions will emerge from the 24-hour exchange of views.

The timetable supports the Yugoslav view. Between Nehru's noon arrival and his departure the following noon with Nasser for Cairo there will be a luncheon, a dinner and a naval review. That would leave little time for formation of any neutralist bloc or important new policy.

Egyptian sources made clear that Nasser hopes to woo Yugoslav and Indian support for the Algerian nationalists. Two members of the Algerian Liberation Front from Cairo and the two rival Algerian nationalists from Geneva are trying to reach here.

None had arrived Tuesday night and a high Yugoslav source said Tito is unwilling to take sides on Algeria.

Egypt Goes West

WASHINGTON (UP)—Egypt has decided to accept the U.S.-British offer to help build the giant Aswan dam on the Nile river, designed to transform 2,000,000 acres of desert into fertile crop-land.

This was disclosed yesterday by Egyptian Ambassador Ahmed Hussein upon his return here from consultations with Egyptian President Gamal Abdel Nasser in Cairo.

Egypt long has been reported teetering between the western offer and reported Russian bids to help build the \$1.2 billion dam. The project is expected to take 15 years to complete.

Needles Rushed to Chicago

Polio Outbreak Spreading Unchecked; Thousands Jam Vaccine Centres

Red Tanks Sent Against Tibetans

NEW DELHI (UP)—The Chinese Communists have sent tanks and infantry to the holy city of Lhasa in Tibet to keep a rebellion against Red rule in the eastern provinces from spreading throughout the Himalayan mountain country, dispatches reaching here said yesterday.

The reports of tanks rumbling through the streets of Lhasa elicited a series of stories brought out by travellers from the isolated religious state that Tibetan mountaineers were in open revolt against the Chinese Communists. China took over Tibet as an "autonomous" province in 1951.

Dispatches reaching New Delhi said fighting raged between Tibetans and Chinese Communist troops at Channing in the eastern part of the land, with the rebels harassing the main road leading to the capital city of Lhasa from the east.

Eyewitnesses reported several months ago that the eastern provinces were in revolt. Tough mountaineers combined outmoded blunderbusses, swords and spears with sure-footed knowledge of the rugged terrain to keep the Chinese in a state of combat alert.

One returning traveller said in Khatmanu, Nepal, that the rebels actually overran one Chinese garrison.

ORGANIZE FIGHT
Details of the new fighting were meagre. In Khan, men and women between the ages of 15 and 50 were reported organizing to fight the Chinese. The Reds are reported to have asked the Dalai Lama, Tibetan spiritual leader, to send three of his priests to the eastern provinces to appeal for peace, but the priests refused. The dispatches said the priests appealed instead for the release of former Tibetan leaders jailed by the Reds.

Sloan Probe Told:

Foreign Firms Gaining Control Of B.C. Forests

BY PETER BRUTON
Colonist Legislative Reporter

Many forest management licences have fallen into the hands of foreign-controlled companies, the Sloan royal commission on forestry was told yesterday.

The charge was made by Ronald Howard, counsel for Western Forest Management Association, during his second day of summing up before the commission.

Mr. Howard, whose clients are opposed to the forest management system, said the U.S. industry was moving into B.C. and well-known companies such as Crown Zellerbach, B.C. Forest Products, and Alaska Pine and Cellulose were now U.S.-controlled.

OTHERS CANADIAN
Celgar and Columbia Cellulose was a Canadian company set up by the Celanese Corporation of America.

Only other large concerns awarded forest management licences were the Canadian-owned MacMillan & Bloedel, Powell River, and Canadian Forest Products, said Mr. Howard.

"We are not opposed to foreign investment but we do believe there is an area for very serious consideration," said Mr. Howard. "We should be doing a lot more planning; we should be giving very serious consideration to just what the effect is of the pattern we are creating."

There was a provision in the forest management legislation which stated licences could not be sold by a company within 10 years of the issuance of the licence.

TRANSFER OF STOCK
"This provision is being circumvented by the transfer of stock," said Mr. Howard. "Forest management licences are falling into the hands of foreign-controlled companies."

He said his clients were opposed to any sort of allocation of timber and that management licences were merely a form of allocation.

Quebec had a yearly licence scheme, there was a 20-year lease system in Ontario, and a 50-year system in Alaska.

"My clients see no reason why the Crown should not offer a long-term timber sale on a package basis," said Mr. Howard. "That would meet all our objections."

ALL ABOARD

With G. E. Mortimore

LOGGERS of the western forest are tough men, but they are human. For instance, they do not hide their sentimental feelings toward the whisky jack, or Canada jay.

Whenever men stop for lunch in the woods, the little grey birds fly down to snare the food. They perch on a nearby twig, a hard hat, or the toe of someone's boot, and cheerfully snatch pieces of sandwich.

According to folk-lore, Canada jays are "the souls of dead loggers." Most loggers assume a protective attitude toward the feathered clowns.

"We were having lunch," a friend tells me, "when a Canada jay flew down and hopped right into a lunch pail. The owner of the lunch pail was a big fellow with a black mean streak in him. He grabbed the whisky jack in one of his ham fists and squeezed it to a rag."

Nobody attacked the man (as they might have done in a Saturday Evening Post short story). But silence fell on the group. Those who had been sitting near the killer moved away. From that time until he quit his job a few days later, nobody addressed a word to him or answered anything he said.

Another man tells me about a friendly black bear who used to hang around a construction camp. The bear would have raided the food if he had been given a chance, but the only damage he did was to lick the grease from the pile-driver.

One day a member of the work gang returned from the bush, and announced with a grin that he had shot the bear. He expected congratulations. Instead, they gave him the silent treatment, which bothered him so much that he quit his job the following week.

The needless slaughter of animals for "fun" rather than food is too common. Most of it is done by men from the cities. The average man who works in the bush looks upon such bloodshed with disgust.

Helmuth Goertz, one of Canada's top portrait photographers, yesterday sold his house and closed his studio in Victoria. He will leave for Britain in September. He plans a six-month holiday with his wife, Genevieve, and children, Anita, 13, and Ricky, 9.

Ken McAllister, who ranks with Goertz in skill and reputation, is also leaving town at the end of August. I couldn't reach him last night for details.

Mr. and Mrs. Goertz hope to buy a schooner or ketch and go for a cruise. After that the German-born photographer plans to open a studio in London.

Mr. Goertz learned his trade in the city of Danzig, set up business in Edmonton in 1937 with a capital of \$20, and won recognition in international photo salons from New York to Amsterdam and Tokyo.

Garden Notes

Some Shrubs Need Pruning

By M. V. CHESNUT, FRHS

The Mock Orange, Broomrape, and Deutzia should all be pruned now, or if your garden is one in which these shrubs are still blooming, as soon as possible after the flowers have dropped.

With the Deutzia and the Mock Orange, cut out as much of the older flowering wood as possible, making room for the growth of the newer shoots which are produced as side-shoots lower down in the branches, or as sucker growths arising from the base.

OVERCROWDING

Both these shrubs have an incredible habit of overcrowding themselves, mainly because of the suckers which thicken up the clumps to a point where flowering becomes thin and poor. Thin these clumps out drastically if the bushes have been neglected over the past years, so the shoots which are allowed to remain can benefit from exposure to sun and air, and become thoroughly ripened and hard by autumn.

With the Broomrape, you don't cut back into old, hard wood at all. Simply cut back by about half the shoots which have grown during the past year. Any poorly placed shoots or branches may, of course, be taken out entirely.

Hydrangeas haven't done so well this year, due to the heavy hill of terminal buds during winter gales.

Weather Forecast

July 13, 1956

Sunny. Continuing warm. Light wind, occasionally reaching westerly 15 in the afternoon. Sunshine Tuesday, 14 hours 48 minutes. Precipitation, nil.

RECORDED TEMPERATURES

High — 73 Low — 54

FORECAST TEMPERATURES

High — 75 Low — 52

Sunrise — 5:31 Sunset — 9:09

East Coast of Vancouver Island—Sunny, Continuing warm. Light winds. High at Nanaimo, 85.

West Coast of Vancouver Island—Sunny. A few fog patches drifting along the shorelines in the morning. Little change in temperature. Winds light. High at Estevan, 68.

One Cowpower

Harry Tripp, a farmer from Ninga, Man., goes to the fair at Boisvein with a cow pulling the old-fashioned buggy. The cow has been trained to work between the shafts and seems to enjoy her work. —(CP).

Names in the News

Nigerian Warns U.K.

LONDON — Premier Nnamdi Azikiwe of East Nigeria yesterday announced his resignation after accusing Britain's colonial secretary of insults, antagonism and interference, over British objections to the West African government's banking and financial practices. He told Britain:

"My humble advice is that you be careful not to mess up affairs of Eastern Nigeria as in the case in Cyprus and Singapore."

PARRIS ISLAND, S.C. — Marine Staff Sgt. Matthew McKee pleaded not guilty Tuesday to charges arising from his orders to a recruit platoon to plunge into a black swamp in which six were drowned.

LONDON — Sir Winston Churchill will unveil a statue in London of the late Prime Minister Sir Winston Churchill, Nov. 7. It was Sir Winston who suggested erecting a statue to "my dear and cherished friend."

WASHINGTON — FBI director J. Edgar Hoover said yesterday the "violent overthrow" of capitalism is still the goal of world Communism despite the Kremlin's talk of a shift to "parliamentary" tactics.

HONOLULU — Honolulu police say a United States Marine signed a statement Monday night admitting the shooting of Esquimaux sailor Ian W. Thompson, 23, of HMCS Crescent. The other servicemen admitted complicity.

GAINESVILLE, Fla. — Gen. James A. Van Fleet, U.S. 8th Army commander in the Korean campaign, underwent an emergency operation for "gangrenous appendicitis" here Tuesday. His condition is "satisfactory."

Ex-City Singer Shows Result of U.S. Training

By DAVID FRANCES

A former Victorian with a delightful personality and voice to match, Miss Marjorie J. Patterson, accomplished a difficult task at a song recital in the Art Gallery of Greater Victoria last night.

She managed to please an audience of friends who were eager to see what progress she had made in five years of studying at Minneapolis. There was no reason for disappointment. Miss Patterson's voice had improved wonderfully in volume, control and quality.

Cameron Charges 'Pecuniary' Interest

OTTAWA (CP)—A Progressive Conservative and a CCF member Tuesday night engaged in a furious argument over the former's business connections. Colin Cameron (CP—Nanaimo) said D. R. Michener (PC—Toronto St. Paul's) has no right to sit off the Commons banking committee, now studying amendments in the Small Loans Act. He said Mr. Michener has a "pecuniary interest" in the legislation under study.

Mr. Michener said he is a director of Traders Finance Corp. Ltd., which has no connection with the small loans business.

The Conservative said he resented Mr. Cameron's allegation

and demanded that he withdraw. "I don't intend to withdraw anything," Mr. Cameron retorted.

Mr. Cameron accused committee chairman J. W. G. Hunter (L., Toronto Parkdale) of "continued studied insolence" toward CCF members of the committee.

Then he turned on Mr. Michener, saying sarcastically he must commend the Conservative member for his "detached view."

"Nonsense," shouted Mr. Michener. Mr. Hunter paid he ruled Mr. Cameron out of order.

"Rule away," Mr. Cameron said, and went on talking.

Steel Strike ...

Pipeline Chiefs Worry

CALGARY (CP)—Trans-Canada Pipe Lines Ltd. officials are "concerned" about their ability to fulfill the company's promise to complete the western leg of the line from Alberta to Winnipeg by Dec. 31, in view of the current steel strike in the United States. The company has less than one-quarter of the required 34-inch diameter pipe and no more will be available until the steel strike is ended.

Under an agreement with Trans-Canada, the federal government has power to seize the line if the western leg is not completed by Dec. 31 and repayment of the \$30,000,000 federal loan at five per cent is not made by April 2, 1957.

N. E. Tanner, president of Trans-Canada, said Tuesday in an interview that a "force majeure" clause in the company's contract with the federal government protects it against the penalty of default if the delay in completing the line is caused by "anything over which we have no control."

He implied the U.S. steel strike would come under this heading.

Mr. Tanner admitted in statements Tuesday that a wrong impression may have been given to outsiders in statements made in the House of Commons during the bitter pipeline loan debate this spring.

He said his company never claimed to have enough pipe "on hand" to complete the natural gas pipeline from Alberta to Winnipeg.

Trade Minister Howe said during the Commons debate that "they have an option on pipe of the required 34-inch diameter which is presently being stocked outside the pipe mills in the United States."

"Trans-Canada has an option on the only supply of 34-inch pipe available for delivery in time for laying during the 1956 construction season," Mr. Howe said.

Mr. Tanner stated the "man on the street" might have assumed from such a statement that Trans-Canada was ready to be delivered.

But persons familiar with the industry would understand the company had an option on pipe to be produced for delivery as needed.

Construction is going ahead on two sections—about 200 miles—of the pipeline and it is expected contractors will be able to work until September using stockpiled pipe.

But work on the remaining five sections of the line will not be started until pipe is delivered.

Loses His Sight Today

Boy Sees Wonders To Store in Memory

ORLANDO, Fla. (UP)—Four-year-old Mike Sibole, carried on the beach yesterday, un- of play with his family would be among his last visual memories.

The young son of Rev. and Mrs. James W. Sibole was to enter the Holiday House Hospital at 7 a.m. today to have his only eye removed because of cancer of the retina.

Mike's other eye was taken out two years ago for the same reason. Specialists agreed that today's operation is necessary if his life is to be saved.

WORLD CONCERN

People all over the world were touched by the tragedy and the family has been deluged with letters, offers, advice and visitors. Mr. Sibole, his wife, Vera, Mike and two-year-old Jerry left the home yesterday morning so that the jangling telephone and knocks on the door would not disturb the repose of the family circle.

The widespread publicity and the looming operation were beginning to tell on the preacher.

Mike's last memory of vision will include a long look at the ocean and the beauty of nature in lush central Florida. The Siboles have tried to cram as much sight-seeing as they could into the

last few days. A beach trip and a picnic rounded out the outwardly joyful period. The minister purposely delayed telling Mike of the approaching ordeal.

"I wanted him to be as happy as possible until the last minute," Mr. Sibole said.

Just what the preacher tells his son before the child enters surgery may never be known.

Sibole said he has made the speech "hundreds of times in my mind" but he said his substance is just "for Mike and me."

The doctor who will perform the surgery said today's operation would be "routine."

"Mike will know no pain," he said. "He has been a marvellous patient. He is a very brave child."

Russia Cuts Cost

MOSCOW (Reuters)—Russia Tuesday announced a 50-per-cent cut in costs paid by the East German government toward maintenance of Soviet troops in East Germany.

The cut, which comes into

duce East Germany's occupation support contribution from 1,600,000,000 marks (about \$400,000,000) to 800,000,000 marks.

Commandos Join Foreign Legion

Bitter Moroccan Battles Kill 77

ALGIER, Algeria (Reuters)—rebel force crouched in their hide- Airborne navy commandos joined outs. Foreign legionnaires rushed to the scene and navy commandos French foreign legionnaires in a airbited by helicopter reinforced them later.

fiere, 24-hour battle against rebel forces near the Moroccan border that cost 77 lives, officials said here Tuesday.

The encounter was one of many reported Monday in which there were close to 200 fatalities, most of them rebels. In addition, 175 encircled insurgents in the Constantine area surrendered and 1,300 suspects were arrested in the Chrea mountains.

The battle at Fillaoussene, 18 miles from the Moroccan border, began when helicopters spotted a

Fighting raged through the day over rocky, scrub-covered hills. adies were found scattered on the battlefield.

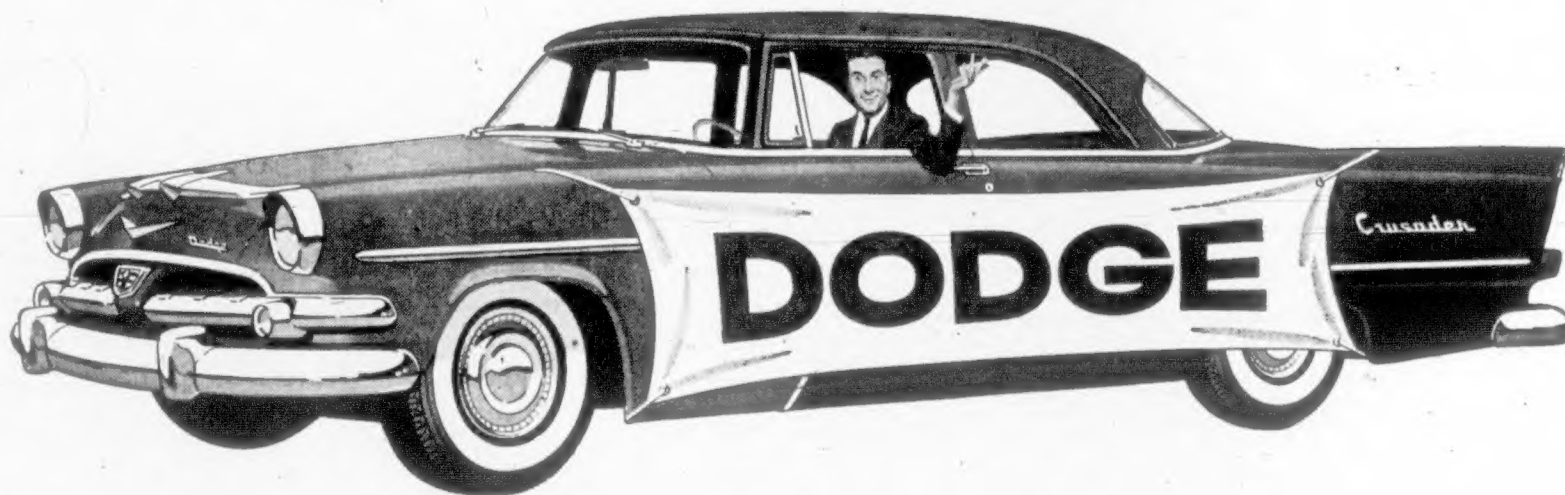

Tuesday, 63 rebels were counted dead for the loss of 14 French soldiers. Another 29 Frenchmen were wounded.

French authorities attributed their "appreciable" losses to the quality of the rebels' weapons. were killed and 175 surrendered.

See why it's the BIG BUY in the low-price field!

You see more Dodge cars on the road today than ever before. And you'll know why when you first drive this best-selling beauty in Dodge history.

For here is the only car in the low-price field that wraps up so much value in one glamorous package. You get the sweeping lines of Forward Look styling, and the modern touch of push-button driving. You enjoy the road-steady feel of

the biggest low-priced car of all, and instantly responsive power that leaves lesser cars far behind.

There's much more besides. But nothing can tell you better than a demonstration drive. Put yourself behind the wheel of the Big Buy in the low-price field now... and let Dodge do the rest!

Manufactured by
Chrysler Corporation of Canada, Limited

Here are some of the many big reasons DODGE is a "best seller" in anybody's book!

- Push-button driving! With Dodge push-button PowerFlite transmission, you just push a button... step on the gas... and go!
- Big-car sized Dodge is almost a foot longer than the other leading low-priced cars—bigger inside, too.
- Better visibility! Dodge windshield is fully wrapped around at top and bottom. Gives you wider vision at eye level.
- High-torque go! Choose the Dodge Hy-Fire V-8 with up to 200 h.p.—or the dependable Big Six. Both offer new highs in torque for instant response.
- Safety Plus! Dodge provides 15 safety features as standard equipment on every model!

COME IN TODAY FOR A DEMONSTRATION DRIVE AT YOUR DODGE-DE SOTO DEALER'S!

Letters to the Editor

Parks for Future

It is of interest to note that Saanich has under consideration plans for an increase in their parks development. An overall plan in this respect for the whole part of southern Vancouver Island is long overdue, when reservations of suitable land should be made now and held for development as required later.

In the past no sufficient provision was made to provide the general public with access to many parts of our sea coast, lakes and rivers.

Possibly, some suitable properties could be acquired now at a reasonable price, if the present owners were allowed a lease for a period of time. Thus such sites would be

Rescuers Thanked

Please allow us space to thank Mrs. Phillips, North Park street, who saved our 9½-year-old son from drowning at Willows beach on July 11. Also, we would like to thank the unidentified gentleman who so kindly went to Mrs. Phillips' assistance.

It is impossible to find enough words to tell exactly how we appreciate what they did.

MR. AND MRS. R. R. McDOWELL,
3000 Carrol street,
Victoria, B.C.

Peacetime Training

In July 15 "Letters to the Editor" one reads that the subject of proposed compulsory military training becomes associated with solicitude for the trainees' souls.

This brings to mind lines of that highly regarded Scot bard, Robert Burns, "Loves there a man with soul so dead, who never to himself hath said, 'This is my own, my native land...'" We have more than a suggestion in these lines that a satisfactory soul requires a strong sense of national loyalty and patriotism.

Some of your elderly readers with memories going back 50 years must feel that today those words "patriotism" and "loyalty" have practically disappeared from print, although it still seems to be accepted that these qualities are of first importance for the survival of any country.

Some will also feel very strongly that many worthwhile experiences and emotions of their own lives were intimately related to loyalties and patriotism.

Certainly two all-out wars have proved to many an ex-serviceman that hasty wartime training resulted in some accidental casualties and considerable unnecessary hardships that might easily have been avoided by preparations and training in peacetime.

Therefore adequate peacetime training with adequate equipment and weapons should bring comfort and satisfaction to every thoughtful soul in Canada, particularly to the parents of trainees. The "zombies" of our Canadian troops during the Hitler war were probably in some respects a direct result of insufficient peacetime preparation and organization.

Shortage of Hay

Having heard the radio broadcast over CBC re the shortage of hay in the Fraser valley, I find it hard to understand the attitude of the minister of agriculture, Mr. Kiernan, and our premier in regard to the acute distress amongst the farmers for their cattle in the Fraser valley; no need except at exorbitant prices for hungry cattle; no help for farmers in desperate straits.

(Mrs.) O. MUSGROVE.

RMD, Cowichan Stn., V.I.

Those Cherries

I was indeed pleased to see someone humane enough to stand up for that family of raccoons which were slaughtered for stealing a few cherries, the most tempting fruit which ever grew on a tree.

There are plenty of two-legged 'coons of both sexes, steal cherries, get away with it; yes, and many other things that they do...

(Mrs.) A. MARSHALL.

748 Humboldt street,
Victoria, B.C.

Kiernan Certain

Fodderless Farmers To Get Aid from B.C.

Vancouver Island and Fraser valley dairy farmers, facing a serious shortage of cattle fodder next winter, will almost certainly be able to get government-guaranteed distress loans.

Agriculture Minister Kenneth Kiernan said yesterday he was only waiting for word from the banks before making the necessary arrangements.

The loans will be similar to those made available to small berry farmers earlier this year who lost a large proportion of

their crops through the severe November frosts.

Legislation was passed at the last session to enable the government to guarantee such loans in the event of disastrous conditions.

"Our surveys show there is definitely a need for credit assistance to many of these people so they can get winter hay now," said Mr. Kiernan.

He added it now appeared certain that adequate supplies of fodder could be obtained but many farmers did not have the necessary cash.

Civil Defence Test Here

Continent on 'Paper' Alert

Defence centres at Central Saanich, Victoria and Nanaimo will be manned this weekend in a civil defence "paper" test.

The scheme is international, starts at 8 a.m. Friday and goes on until noon Monday to test draft plans for evacuation, survival and communication.

Federal civil defence headquarters and all Canadian provinces, except Prince

Edward Island, are participating, along with the United States federal civil defence administration.

The provincial civil defence control centre at Mount Newton high school will be manned throughout the test by the full-time defence staff, augmented by volunteers.

At the Greater Victoria CD control centre in the inner building 20 volunteers will man each shift on the test.

Co-ordinator Roger Peachey said the test will be an examination for headquarters personnel and of communication facilities.

FIVE POINTS

Communications will be maintained from five garrison points, each about 10 miles outside Victoria as part of a "simulated" city evacuation.

The Vancouver Island mobile support and reception area

headquarters at Nanaimo will participate with a skeleton staff on Saturday. The northern city, in event of an attack on Victoria, would receive evacuees and dispatch supplies to stricken areas.

The scheme is in three phases, reports provincial co-ordinator, General C. R. S. Stein. The first, from 8 a.m.

will be an examination of draft plans for evacuation of Greater Victoria and Greater Vancouver.

Also to be considered are reception plans and capabilities throughout B.C. fall-out problems from bombs, mass care and casualty problems.

The second phase, until 11 p.m. Saturday, will examine the impact of problems arising in resources and plans. The third phase, from 1 a.m. Sunday until 10 a.m. Monday will check on problems raised in the first two phases and on preliminary rehabilitation requirements.

Sewer Work Started

First work has begun in the city's new systematic sewer replacement program.

The program, costing \$48,500 this year, was approved this spring by city council and will continue in perpetuity on a depreciation-replacement basis.

First phase of the work will be to clean Victoria's sewers and, at the same time, to find which sewers and drains need replacement most urgently.

A public works crew has started work on Chatham between Government and Store, experimenting to determine the best method of cleaning and testing the 18-inch main sewer that runs down Chatham and along Store toward the Inner harbor. A second crew will start work soon, City Engineer J. C. Garnett said.

GO DUTCH

DO YOU hate the sight of that rug in your living room? Is it all scuffed & threadbare where the kids have kicked it, lost in TV. WE'VE GOT THE ANSWER... Do as thousands are doing... get yourself a big hunk of this Sisal. It comes 9 ft. wide (also 7' for hall & stairs) and a room size 9 by 12 is only \$35.40. In the States they are selling this stuff by the side of the road, & instead of stopping for a crate of strawberries, or a watermelon... the wife says... "pull off here Ed, & let's get a new rug." They have 'em on big rolls, just like we have, and you can get one any length, by 9 ft. wide. Sure the dirt sifts thru, but SO WHAT??? your vac will pull it thru, or once in awhile you can turn it over. It isn't just the poor who buy these either... everyone is doing it even those in Mortgage Heights! and the trick is to get a few yards of that bamboo curtain to go with it. OF COURSE it isn't like wool broadloom... isn't meant to be, but while the kids are growing up, & you want the place presentable, why THIS IS IT. We have 4 colors... grey... rose... brown & green. If it wrinkles in places, you just throw a bucket of water on it, and presto! smooth again. It will never wear out. It's just 4 bucks to fix each end... a new & tricky way we have. For patios of course it is ideal... so... do as thousands are doing... pull in to HUMBER'S... and ask us to cut you a hunk of Sisal. It's made in the Dutch Netherlands. It has a sort of large diamond design. Get yourself this new Dutch Treat from

Announce New Way To Shrink Painful Piles

Science Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance—with the astonishing ability to shrink hemorrhoids and to relieve pain. Thousands have been relieved—without resort to surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months.

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles

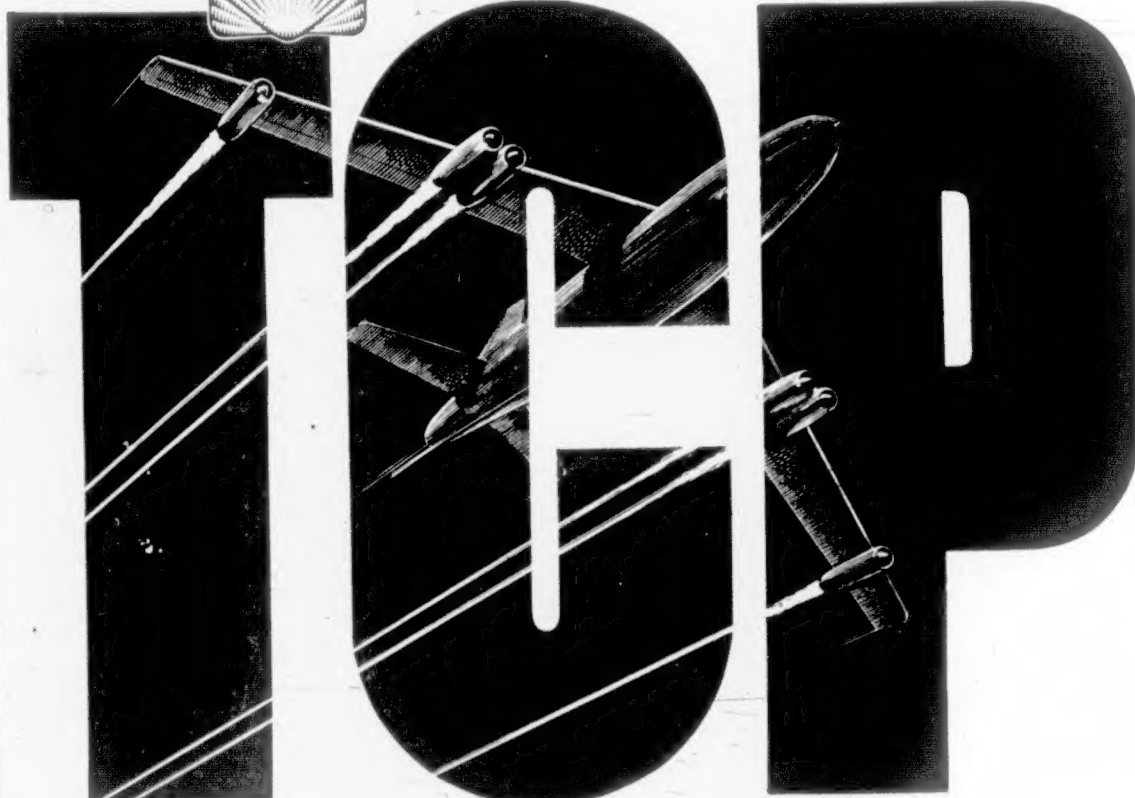

have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a famous scientific institute. Already, Bio-Dyne is in wide use for healing "inoperable" parts of the body.

This new healing substance is offered in support of a new method (now called Preparation H®). Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H® is sold at all drug stores. Satisfaction guaranteed or money refunded.

The bidding:
West North East South
1 4 3 3
Pass 47 All Pass

Dr. Girard Oberlander, Lenox Hill hospital's genius of the ear and throat, is among other things, an expert listener. "I learned the habit from my father," he explains. "He was not a doctor, but when I decided to become one he gave me a bit of valuable advice: Let a patient talk long enough and he'll tell you what's the matter with him."

The same sage advice will help you diagnose a bridge hand if you listen carefully to what the other players are telling you. The result of today's deal was due to West's paying heed to the bidding. But it could have been turned around if South had been equally mindful of what was going on.

From the bidding, it was obvious to West that East had little or nothing except good clubs—information that warned of the likelihood of winning more than a single club trick against four hearts. Consequently, West planned to take advantage of holding three trumps including two top honors. He opened the seven of diamonds. Dummy's jack won and a heart was led. West took his king and continued with the diamond deuce. This time South won and led hearts up to dummy's queen. But of course, West

Court Parade

Young Driver Jailed

Concurrent sentences of three months definite and six months indeterminate on each of three charges were given 19-year-old Barry T. Chanakos, HMCS Naden, by Saanich and Victoria police courts yesterday.

He will serve his time in the Young Offenders' Unit for joyriding, hit-and-run and criminally negligent driving.

A companion, Alfred W. J. Salter, HMCS Naden, was fined \$100 by Saanich court for "joyriding."

("Joyriding" has become an accepted term for taking a car without the owner's permission.)

A remark attributed to Chanakos by police when they awakened him at barracks was brushed aside by Magistrate Henry Hall as "a bit of bravado."

Chanakos was reported to have said: "I wish I had killed him so you could charge me with that, too."

Counsel James Proudfoot said the sailor had been drinking heavily prior to his sleep and told police, "It's too bad I didn't kill him."

Chanakos and Salter had pleaded guilty to taking a car without the owner's consent in Saanich.

About 11:30 p.m. July 8, Chanakos was in a collision at Blanshard and Pandora where Wallace Fong, 19, of 670 Herald, was thrown 25 feet from his car.

Witnesses told police Chanakos' vehicle sped through a red traffic light. He was later located at naval barracks.

Gladys Beasley, 1024 B Pandora, was remanded until July 24 for trial when she entered a not guilty plea to a charge of driving a taxi with an untested meter. Counsel is David Sloan.

Gerald A. Reimer, 1248 Oscar, and Ronald E. Payne, 125 Fort, each was fined \$25 for failing to wear adequate eyeglasses while driving, contrary to their licence requirements. Payne also was fined \$5 for a prohibited left turn at Yates and Douglas.

A man found hidden beneath a trailer across the street from the site of a break-in pleaded guilty yesterday to the offence. David Guthrie, 32, of 834 Devonshire, changed his plea to guilty after being remanded last Wednesday on a plea of innocence.

Police said Guthrie was found hidden beneath a trailer across the street from Horwood Bros. garage, 1725 Government, at 2:05 a.m. July 10.

They said Guthrie appeared to have been drinking and that nothing was stolen from the garage, where a glass panel was smashed in a door.

Guthrie was remanded until July 19 for sentence. He has six previous convictions from 1939, and was released last January after serving nine months in jail on a similar charge.

Boy Sentenced In Shooting

SECHLT, B.C. (CP) — A 15-year-old boy has been sentenced to an indeterminate sentence in reform school after being found guilty in juvenile court of criminal negligence in connection with the shooting death of 65-year-old Mrs. Francis Flynn.

The boy, whose name has not been released, was originally charged with murder.

Election Poses Problem

The newly-formed Victoria Labor Council (CLC) is faced with a major executive problem even before its first meeting.

Percy Rayment, already chosen secretary-treasurer of the council, failed to win election as a delegate from the carpenters' union, of which he is a member.

His status when the initial meeting of the labor council is called Aug. 15 could not be learned yesterday.

The new constitution requires that each officer shall be a member in good standing of an affiliated organization. There is no requirement that an officer shall be a delegate from an affiliated union.

PRESIDENT

Jack McKenzie, council president, is in Vancouver but is expected to confer with other executive members on his return this week.

The new council results from the merger of the former CCL and TLC labor councils in Victoria. The old groups had agreed which council was to elect certain officers, the TLC taking the post of secretary-treasurer.

Mr. Rayment has been in that position with the TLC for seven years. The TLC elected him as an executive officer of the new council at a final meeting two weeks ago.

Elected by carpenters as delegates were James Moffat, Ernest Oliver, Vic Midgley, E. T. Staley and Arthur Kilgore.

Texans To Visit Victoria

Victorians will be host to 200 Texans for a one-day visit on Thursday.

The mixed crowd of cattle and sheep ranchers and wheat and dairy farmers will arrive here by steamer Thursday morning. They will be treated to a sightseeing trip and a visit to the Dominion Experimental Station at Saanichton.

They will have the afternoon free for shopping before embarking for Seattle.

The seventh annual farm study tour sponsored by a Dallas radio station has taken the party through the central States and Canada and is to continue through the southwestern United States.

Experts Study Ways To Save Crabs, Clams

Federal Fisheries Minister James Sinclair says department scientists are studying possible regulations for conservation of the crab and razor clam population at Long Beach.

An article in the The Daily Colonist recently included complaints by resort owners and residents at Long Beach that commercial fishermen are depleting these shellfish, regarded as major attractions for visitors and staple district foods.

Razor clams only frequent beaches which are exposed to the pounding of ocean swells. They are found in large quantities at Long Beach and at Masett in the Queen Charlotte Islands.

Libby's

**SLICED
PINEAPPLE**

**Libby's
Hawaiian Pineapple**
—juicy, extra-luscious!

1. For desserts, Libby's Pineapple comes in Slices, Chunks and Crushed Styles. Just chill and serve. And try this: top Libby's Pineapple Slices with scoops of Raspberry Sherbet and spoonfuls of thawed frozen raspberries.
2. For salads, top Libby's Pineapple Slices with chunks of Roquefort or Cream Cheese. Spoon on Cranberry French Dressing (stir 2 tablespoons canned Cranberry Sauce into ¼ cup French Dressing).

*2 dessert and
2 salad ideas*
for summer ease by
Libby's

**Libby's
Fruit Cocktail—**
5 luxury fruits!

3. For desserts, Libby's Fruit Cocktail gives you five favorite fruits without peeling. Luscious! And try it with ice cream. Wonderful hardly describes it!
4. For salads, arrange this on greens: drain Libby's Fruit Cocktail, toss with walnuts and heap on slices of canned jellied-cranberry-sauce. Pass your favorite dressing.

Libby's fruits are
matchless! Double
your money back
if you don't agree!

4
"Easy-do"
ideas
from
Libby's

Mary Hale Martin

"Scrumptious Super Dish"

Sauté bits of leftover cooked meat with a little minced onion, celery and green pepper until tender and golden. Add Libby's Deep-Browned Beans and Libby's Catchup, and heat thoroughly.

N.B. Be sure to use Deep-Browned Beans. Only Libby's make Deep-Browned Beans—by an exclusive process that Deep-Browns every individual bean, flavoring it through and through with Libby's luscious tomato sauce. Get lots—everyone will want "seconds"!

"Savory Spaghetti"

Sauté ¼ lb. bulk sausage till cooked; add drained can of mushrooms, minced onion, salt and pepper. Cook till onion is tender, then add 2 tins of Libby's Spaghetti with the cheddar cheese sauce—and its zesty flavor makes this dish really super eating). This serves 4 heartily!

"Pork Chops à la Libby's"

Give pork chops a special tang. After browning, cover with green pepper rings and Libby's Tomato Catchup, and cook over low heat until chops are tender and cooked through.

Taste the extra-richness of Libby's Catchup! It comes from a generous hand with tomatoes. The folks at Libby's use more tomatoes, to give their Catchup a "more tomato-y" flavor. If you haven't Libby's Catchup on hand now, get some next time you shop. We guarantee it'll please you. (Double your money back if you don't agree).

"Tangy Barbecue Sauce"

Simmer together till flavors blend: ¼ cup Libby's Catchup and ¼ cup each brown sugar, Libby's Mustard, and vinegar; and a good dash Worcestershire sauce.

Marvellous for basting frankfurters and hamburgers, as you broil or barbecue them.

N.B. Check your pantry for Libby's Mustard and if necessary get some next time you shop. It has an extra-zesty flavor you'll like—in recipes as above, and just as it comes from the jar!

BCPC To Lower Hydro Levels In Response to Public Clamor

Sproat Lake Victory

Special to the Colonist
PORT ALBERNI—H. I. Briggs, general manager of the B.C. Power Commission, has announced that the proposed reduction of the two feet in operating levels for the Sproat lake hydro development has been studied and found acceptable.

The proposal that the operating range be reduced from the originally planned seven to 10 feet to a range of five to eight feet was made at a meeting here last week when Sproat lake ratepayers and others questioned the damage to property which might be involved in maintaining the higher operating range.

In his announcement Mr. Briggs said:

"Despite a decrease in the power output and other restrictive features, it would nevertheless be acceptable to the commission as a basis of operation."

Token of Appreciation

A grateful father sent a Hawaiian lei, earrings and necklace to an heroic Victorian woman yesterday. Bobby, 9½-year-old son of Chief Petty Officer R. R. McDowell and Mrs. McDowell, 3000 Carroll, took the present to Mrs. Ann Phillips, 1053 North Park, yesterday, a token of appreciation for her rescue of him off Willows Beach last Wednesday. Bobby fell off a log and Mrs. Phillips just stripped off her outer garments and went after him. Mrs. McDowell said Bobby spent a day in hospital. (Colonist photo by Jim Ryan)

Sea-Going Thieves Raid Again

Thieves who travel on the sea as well as on land are again plaguing sports fishermen in Greater Victoria. Following the report yesterday of the second boat burglary at Hall's boathouse in a month RCMP at Colwood assured boat owners that "our files are never closed in these cases."

To prove the point, a policeman pointed to the arrest of charges of possession of

stolen fishing tackle, worth a total of \$500.

The man pleaded guilty and was sentenced to 18 months in prison. He later appealed and won a reduction of sentence.

First theft at Hall's this year occurred June 17 when two burglars took two rods and reels from the open vessel "Lesta," owned by Cyril Roen and Albert Head.

TACKLE TAKEN

Two days ago W. D. Jessup, 2493 Hammon, reported that sometime during the previous week someone stole fishing tackle and electronic equipment from his 29 foot cabin cruiser.

You have no reports to start with an RCMP spokesman said. "But sometime or other you run across the stuff."

This often is accomplished through the frequent RCMP checks of small boats in Vancouver Island waters, equipped with fire fighting and life saving regulations.

Police had a word of advice for the boat owners.

"They would assist us best if they would take the necessary precautions in the first place—by not leaving their fishing equipment exposed."

Firemen Plan Demonstration

Sanctuary fire department will attend "Fast, Man, Day" at Hampton Park Wednesday and give a demonstration of its up-to-date equipment for the benefit of the youngsters and their parents.

Prizes will be awarded to youngsters who wear the most original costumes.

Tuesday will be a feature at Tolmie Park the same day and Saanich police will address children at Ramoth Park. Friday, Beaufort Park, will hold "Cowboy and Indian" day.

Amateur Talent Sought

An amateur talent contest for singers, instrumentalists and dancers under the age of 21, is to be added to Saanich municipality's celebrations of its 50th birthday at Beaver and Elk lakes Sept. 1.

A piece of land already been posted for the summer of 1956. Valued \$100,000, the property of the Beaver Lake commission and member of the Beaver Elk lake swim committee, announced yesterday.

FLOAT AS STAGE
"The talent show will be staged on the new float in Beaver lake," said Mr. Sadler. "The float will be able to sit on the shore and listen and watch."

"We hope the contest will encourage some youngsters with talent to come forward to be heard," he said.

Elimination contests will be held in August. The number of contestants is high enough. Any interested in competing or helping to stage the contest may phone Mr. Sadler at 24431.

OTHER ATTRACTIONS

The festival celebrations at Ramoth, Beaver and Elk lakes, include a long parade between Beaver and Elk lakes, a band playing, a contest of singing and dancing, a contest of painting and a contest of the most original costumes.

Top of Mount Tolmie 'Best Tourist Lure'

By BRUCE LOWTHER

The maker of the "Schley ride" travelogues, popular in the central United States, says that only one of the Hawaiian islands and a small Italian town compare with Victoria as a garden spot "in all the world."

But Norman Schley, who came here yesterday, to film Victoria as part of a "Schley Ride to Western Canada" thinks that this area's "best tourist attraction is the top of Mount Tolmie."

The Waukegan, Wis., business man said he would like to be the first to put a bus or 10 buses into something to do something about that mountain.

You should ride the road to the top of the mountain. It's beautiful.

But you can look around 360 degrees without an obstruction and see everything. It's beautiful. I've never seen anything like it anywhere in the world. It's beautiful.

Mr. Schley originally did not intend to come here, but was persuaded to do so by Harold Wright, CNR public relations officer, and has found that this area's "best tourist attraction is the top of Mount Tolmie."

He has taken films of Chief Mungo Martin, the Butchart Gardens, Beacon Hill park, the inner harbor, the downtown area with its hanging baskets and many homes in the uplands and all over the place.

Everybody's working on their films, he said. "The only place I can think of to reach Victoria for gardens are Kauai in the Hawaiian islands and

Area of Abundance

Fabulous Pacific Northwest Wins Itself New Place in Sun

The only way to describe the immediate past and future of the Pacific Northwest is to say it is an area of abundance. Mr. Mainwaring said yesterday, as he found that this area's "best tourist attraction is the top of Mount Tolmie."

For many years of our generation," he told the club, "this area was considered a frontier, that was beyond immediate consideration for development since the end of the Second World War that attitude has been changed abruptly by the great achievements and contributions which we have made in meeting world demands with our great abundance of raw materials."

ONE OWN FOOTHOLD

The Northwest had gained a new "place in the sun," he said and had been placed in a position "where we are well qualified to establish our own foothold in the competitive markets of the world in the name of Northwestern America."

Growth of the Northwest in all respects in the post-war decade gave little indication in the light of present conditions "of anything which should give us in the North west cause to fear business recession in the near future."

Growth, Mr. Mainwaring said, had on itself.

He said that to keep pace with "this fabulous growth" development of new hydro-power sites was

Around the Island

Gulf Islanders To Vote on Loan

Ratepayers in the Gulf Islands will vote July 28 to decide whether to borrow \$50,000 over 20 years to build a new hospital at Ganges. Provincial cabinet authorized the plebiscite.

The vote will be held in the Gulf Islands Hospital improvement District with polling stations at North Galiano, South Galiano, Ganges, Mayne, Saturnia, North Pender, South Pender and Fulford.

NANAIMO—City council here hope to pass the city's shortage of playing fields by leasing available vacant properties for use as parks and playgrounds.

The district school board, originator of the idea, has asked the town planning commission to supply a list of available sites.

School board officials said most playing fields in the city are school grounds and recommended other areas be set aside to supplement them.

COURTENAY—Funeral services were held recently for Harold "Pop" Ward of Union Bay. He was a well-known resident there since 1932.

He was born at Gainsby, England and came to Canada in 1907.

He operated the home garage at Union Bay from 1937 to 1941 and was then employed by Rehan Logging as bookkeeper and first aid man for 15 years.

Besides his wife Mr. Ward leaves two sons, Richard and Jack of Union Bay, two daughters, Joyce at home and Mrs. Alan Fletcher at Nanaimo, and one brother, Frank, in New Westminster.

Hot? Try This, Says Jade

Nobody has to be grown up to know the best way to keep cool these days. In fact, being grown up is a definite handicap, as Jade Elizabeth, 13 months, daughter of Mr and Mrs

Roger Hemm Vancouver, demonstrated when she visited her grandparents, Mr and Mrs J. A. Burchett, 2660 Ambury, (Colonist photo by Jim Ryan)

Last night he located the last rescuer, a man who rescued him from drowning at Elk lake Sunday, has finally hunted up all of those who participated to give them his personal thanks.

Arnold Lowe, 29, who lives at 619 Astor, was the rescuer. He was rescued from drowning at Elk lake Sunday, has finally hunted up all of those who participated to give them his personal thanks.

Today's Forecast:

Crowded Beaches, Sweltering Offices

Forecast for today, crowded beaches, sweltering offices, a run on the downtown and a hot pop market.

The mercury which climbed to 73 yesterday, averaged 74 today. Another hot day.

Seen in Passing

Wayne, three-year-old son of cream cone with the same non Mr. and Mrs. Ben Laughren, attacking a seven-decker ice cream truck.

Tommy Parkinson getting somewhat belated congratulations for his part of rescuing nine-year-old Bobby McDowell off Willows beach last Wednesday.

Chief PO Tom Dave and PO W. C. Brown riding in style with navy driver Joe Fischer.

Lived McKenzie a day early for a court trial.

Tom Rannister winning at crib.

Denny Walker, helped by Gordon Taylor, finally finishing the renovation of his back steps.

Larry Marshall trying to arrange a fishing trip for former world heavyweight champion Jack Sharkey.

Ken Kenneth, Whipper Billy Watson and Stu Harle here for the wrestling card.

Ivan Temple talking plans for an inter-city intermediate hockey league.

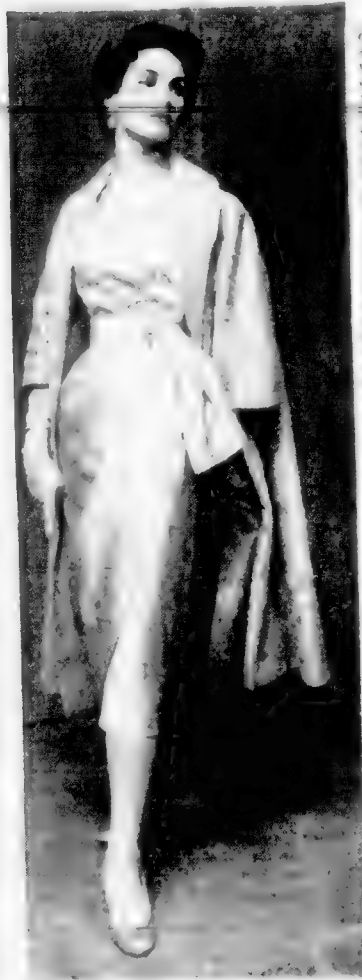

Le-Cmdr. Stanley Boney anticipating a deluge of model entries for the Navy Day competition when the next Colonist application form is printed during the weekend.

Sharon Lane trying to keep quiet, but not succeeding.

At the New York Showings...

Turn of the Century Influence In Tight Skirts, Camise Tops

By MARIAN RAHL

It was the first time the turn of the century influence was seen in the New York showings. The influence was seen in the tight skirts and the camise tops. The influence was seen in the tight skirts and the camise tops. The influence was seen in the tight skirts and the camise tops.

The influence of the turn of the century was seen in the tight skirts and the camise tops. The influence was seen in the tight skirts and the camise tops. The influence was seen in the tight skirts and the camise tops.

Because she believes clothes should express a woman, Adele Simpson does a fall and winter collection that emphasizes femininity from a simple little word dress which she has done in colors because women in suburban areas prefer them to the elegant evening dress and coat costume every line is studied. The fabric appropriate and the color flatter.

The influence of the turn of the century was seen in the tight skirts and the camise tops. The influence was seen in the tight skirts and the camise tops. The influence was seen in the tight skirts and the camise tops.

The 'camise' is a slightly bloused top on a slim cutting gown that looks something like a camise-top but ends at the waistline and it is heavily embroidered with beading. The version in pale blue chiffon with crystal embroidery is an excellent example of its delicate handling. There are lovely full skirted dresses in velvet in red or green velvet over white with black chiffon makes a short dress with black box hemline. There is a heavily all over sequined, shawl-like dress in black. A lacy top makes a dress with crystal embroidery and full skirt of white chiffon. These and the silk brocade and gold lines are highlights in a beautiful group of evening dresses. The bloused evening coat with fur border is another takeoff of the 20s.

These are the first time the turn of the century influence was seen in the New York showings. The influence was seen in the tight skirts and the camise tops. The influence was seen in the tight skirts and the camise tops.

Rita Del Mar's Daily Astrology

WEDNESDAY, JULY 18, 1956
Today's quotation: "We pity in others only those evils which we have ourselves experienced."
Wednesday for everyone: Promote ingenuity, resourcefulness, make a special effort to refrain from impulsive, injudicious actions. Enjoy some sociability, pleasure.
Look for your Birthdate and Birthplace below.
March 21 to April 19 (Aries) - Give local matters and the family priority. Practical moves pay off in increased security.
April 20 to May 20 (Taurus) - Promote decisions or negotiations with others. Let people know what you think.
May 21 to June 20 (Gemini) - Aggressive tactics, money affairs.
June 21 to July 22 (Cancer) - Do things in person to get the most accomplished. Move forward along practical lines.
July 23 to Aug. 22 (Leo) - Let others know if you need help. Do nothing to arouse moody people. Confidential matters are assured.
Aug. 23 to Sept. 22 (Virgo) - Push matters in which you deal with groups of people, acquaintances or the public. Advance hopes.
Sept. 23 to Oct. 22 (Libra) - Turn aside from personal affairs and concentrate on dealings with higher-ups. Turn your credit rating upward.
Oct. 23 to Nov. 21 (Scorpio) - Your view of things seems reliable. Plan and arrange. Get future matters lined up for attention.
Nov. 22 to Dec. 21 (Sagittarius) - Make today's moves count in joint money matters. You can uncover practical, valuable items or angles.
Dec. 22 to Jan. 19 (Capricorn) - You are best in a co-operative position. Uphold principles. Get out a bit this evening.
Jan. 20 to Feb. 18 (Aquarius) - Practical, workaday affairs require attention. Progress is likely if you aim for it. Be helpful.
Feb. 19 to March 20 (Pisces) - You should be able to turn things in your favor. Try for the recognition of talents.
Planning ahead - Good for sociability, entertaining, etc. (afternoon), 21 (morning), 27 (afternoon), 28 (afternoon), 31 (morning).

Spanish War Disunity Still Bearing Fruit

MADRID (AP)—The Spanish Civil War, which started 20 years ago today, has left a bitter legacy of disunity in the world. The seeds of disunity sown then in the world of Western democracy are still bearing fruit.

The international dictators—Nazis and Fascists on the one hand, Communist dictators on the other—have been reaping the fruits of the Spanish Civil War. It was a preview of the Second World War—Fascist and Communist dictators using Spain as a proving ground. Men and women from nearly every country fought and died here. Spain and the Spanish people were more or less incidental, but when it was over, Spain had joined a growing list of totalitarian countries.

But the bitterness of the conflict set off 20 years of impassioned debate and soul searching and brought the Western democracies to the brink of disaster.

Many liberals and conservatives joined organizations to help one side or the other, only to discover later that they were directed by hidden Communist or Fascist masters. Many paid for it in degradation and dishonor.

But the bitterness of the conflict set off 20 years of impassioned debate and soul searching and brought the Western democracies to the brink of disaster.

Many liberals and conservatives joined organizations to help one side or the other, only to discover later that they were directed by hidden Communist or Fascist masters. Many paid for it in degradation and dishonor.

Royal Oak Principal Wins \$700 Scholarship

Royal Oak high school principal has been awarded a \$700 scholarship for post graduate study in commerce, it was announced yesterday.

Robert S. Price, 3924 Laurel Road, received word of the award from Dean Walter H. Gage, chairman of UBC's scholarship committee yesterday.

Mr. Price is a graduate with both arts and commerce degrees from the university. He served overseas with the Canadian army from 1942 to 1944.

Students Get Common Test At Montreal

MONTREAL (CP)—For the first time, French-speaking and English-speaking grade VII students of the Montreal Catholic School Commission have written a common examination.

A picture, a new technique, provided the basis for French-speaking students to write in English and vice-versa.

All questions were founded on a family living-room scene.

"Our emphasis in teaching both languages is on oral mastery," an official explained. "By using the picture we tried to get away from stereotyped examinations placing more emphasis on mechanical rules than the oral part."

Some Anglers Say 'Strike Instantly When Bass Take A Bug Bait'

SOME ANGLERS SAY, "STRIKE INSTANTLY WHEN BASS TAKE A BUG BAIT." THAT'S A GOOD WAY TO YANK THE BUG FROM THE FISH BEFORE HE HAS IT IN HIS MOUTH, SO YOU'LL MISS A LOT OF FISH IF YOU DO.

SOMETIMES BASS WILL SMASH HARD AND HOOK THEMSELVES, BUT MOST OFTEN THEY SUCK IN THE BUG WHILE POISED BELOW THE SURFACE (AS SHOWN ABOVE). YOU'LL SEE BUG DISAPPEAR BEFORE A BASS HAS IT IN HIS MOUTH, THEN WHEN HE GOES A BIT BEFORE EXPLODING THE FISH, IT PAUSES A SECOND AFTER BUG DISAPPEARS, THEN STRIKE SOFTLY, IT HOOKS 'EM!

Fresh Water Veteran Tar Never at Sea

MONTREAL (CP)—Donat Labonte has been a sailor 64 of his 80 years and has been to sea once as a passenger.

Captain Labonte, skipper of the cruise ship SS-Jaland King II, is a freshwater man. He knows the St. Lawrence River and the Great Lakes like the bottom of his bathtub.

Born at St. Stanislas-de-Kaskas, Que., the captain shipped out at 15 as a deckhand aboard a lake freighter. His first venture into independent operation concluded when the vessel sank at the dock.

Norway expects to complete about 28,000 new dwelling units during 1956.

Tiny Stump Sares Four From Death

Mrs. Mildred Forester, 38, of Chilliwack is in good condition after escaping death by six inches on the Malahat Tunnel, hill late Monday night.

She was the only one of four occupants of a car seriously injured when their vehicle went off the highway. Her 14-year-old son and Mrs. Eloi Galt, 40, were also injured.

The car, wrecked as it bounced, overturned and rolled down a steep embankment, was a real wheelbarrow of a car, a real wheelbarrow of a car, a real wheelbarrow of a car.

Reds To Try 323 Rebels

WARSAW (UP)—Public prosecutor Marian Rybicki said Tuesday that as many as 323 persons will be tried for taking part in the three-day revolt in Poznan. Conviction could mean death.

Rybicki gave final government figures on the June 29 uprising—and admitted that workers had "largely justified" grievances. Not once did he say the rebellion was sparked by American espionage agents.

BROKE THE RULES

What caused the army to revolt against a republican government which had started so bravely in 1931?

For hundreds of years the army—meaning the higher officers—had been Spain's fundamental political force. Normally it permitted the civilian regime to run the country with a minimum of interference as long as it maintained order, accorded sufficient privileges to the military and refrained from radical political experiments.

The republican government violated all three conditions, and in the bargain tried to break the army's power.

The brain of the army revolt was Lt. Gen. Emilio Mola, but Gen. Francisco Franco, third in line for the high command at the start, was appointed commander-in-chief by the nationalist military junta Sept. 29, and two days later was proclaimed chief of state—the job he holds today.

News of Nanaimo

Impaired Driver Jailed 27 Days

NANAIMO—A Port Alberni man was sentenced to 27 days in jail here yesterday for 27 days by Magistrate Lionel Beevor-Potts for driving while impaired.

Albert Rochon, who pleaded not guilty, also had his licence suspended for nine months.

He had been convicted of a similar offence previously. Rochon, a bartender, asked for an adjournment last week to produce a "surprise" witness. The witness could not be found for yesterday's hearing but defence counsel Gordon King of Vancouver submitted there was no case to answer because the prosecution had not proved Rochon was driving the vehicle in question.

He asked for a dismissal but this was refused by the magistrate who said police had furnished ample proof.

The charge arose following an accident in the 200-block, Victoria road, June 28. Constable D. R. Cathcart of the RCMP said he arrived at the scene a few minutes after the accident to find Rochon behind the wheel of his car. Rochon told the constable he had "swerved to avoid two kids."

Bill Turner, foreman of the parks board works crews reported to the board Monday that parks in Nanaimo are "busier than ever they were." Caretakers are having so much to do watching young people around the pools that they have no time to look after maintenance of the grounds, he said.

He stressed the importance of supervision, and also stressed the importance of having good tools to do the jobs required, especially grass cutting. He told the board the mowers they had were worn out and asked for a power mower.

"We can't afford it," said Ed Blackburn, board chairman.

Permission was granted the Lions Club by the parks board to use Haliburton Street park for their jamboree Aug. 2, 3 and 4.

Construction costs of Nanaimo's civic float have been paid, but funds are now required to transport the float, and Miss Nanaimo to the PNE. Some \$700 was collected to pay for the building of the float.

Bugler Cyril Dennison sounded the "last post" at the graveside of Victor Fawcett, Nanaimo court registrar, who died Friday after a heart attack.

Burial service was held after funeral services in St. Peter's Anglican church Monday. Members of his own office staff, of the Supreme Court, County Court, the Bar, and Canadian Legion officials, turned out to pay last respects.

Six veterans of two wars carried

Public's Views Sought

A series of public hearings on B.C. Power Commission plans for hydro development on Vancouver Island have been scheduled by a special investigating committee headed by G. E. Bonner of Cobble Hill.

Meetings are to be held at Duncan, Port Alberni, Courtenay, Campbell River and Nanaimo.

Raising the level of Sproat lake and Alberni area power problems will be discussed in detail.

Union Action

Fired Loggers To Form Picket

DUNCAN—Union pickets are expected to be on the job this morning at Gordon River operations of Western Forest Industries.

Decision to throw up a picket line was made yesterday by representatives of 140 company employees discharged last Thursday when they refused to report for a 5 a.m. shift.

The representatives were told that "no progress" had been made in negotiations between Lionel Beevor-Potts and Gerry John Billings, representing Industries.

Forest Industrial Relations which bargains for the company. The men were reported to have refused to report for the shift.

guaranteed them eight hours work or eight hours pay, concession enjoyed by employees of companies whose operations adjoin those of Western Forest Industries.

Family of Four Flees from Fire

ALBERNI—Property damage was estimated at more than \$18,000 when fire Tuesday destroyed a small manufacturing plant and a home in the Beaver Creek area about one mile north of here.

Flames were darting through the roof of the West Coast Concrete Works building, property of John Rayner, when Mrs. Robert Dady, who lives adjacent lot, awakened at about 3 a.m. and aroused her husband and two teen-age daughters.

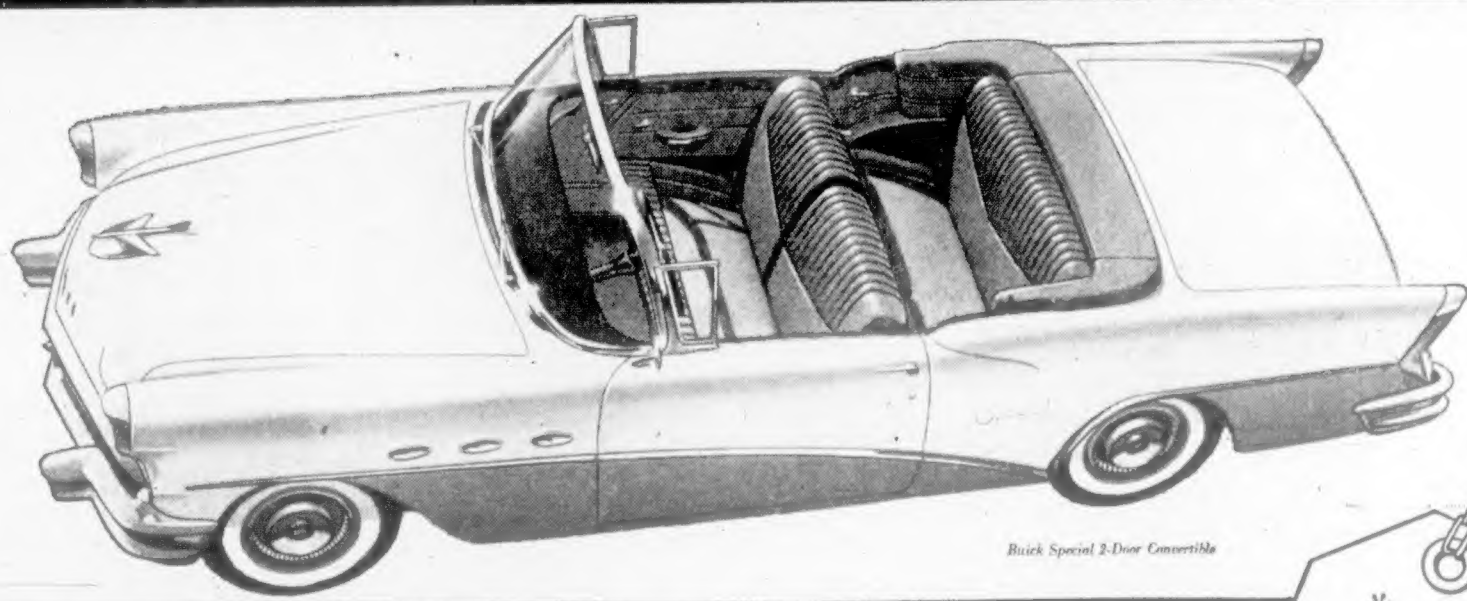

The Dady's, with help of neighbors were able to carry their household effects to safety before flames spread to their home. Wells in the area had been decided to battle the blaze in the concrete block plant and took off water hampered efforts to save the home.

Several trips were made to his house which was burned to the ground. Mr. Rayner, whose property was covered by insurance, stated that he believes the loss in building and equipment would be around \$10,000.

The Dady family helped by neighbors and friends, were moving their furniture into a partially completed home across the road. The house was offered for use in the emergency by Robert Berry.

Mr. Dady put a tentative estimate of \$2,000 on the value of the property.
